

#### § 142.44

#### 19 CFR Ch. I (4–1–02 Edition)

should be approved at his port, the port director shall forward the application to the Assistant Commissioner, Office of Information Management. The Office of Information and Technology will review the application and will notify the port director of the final determination.

#### § 142.44 Entry number range.

After an application for Line Release has received final approval, filers must provide the port director, in writing, with a range of entry numbers for use in the system so that an entry number can be assigned automatically to each Line Release transaction. For the purposes of this subpart, “entry number”, when the release is an immediate delivery, merely refers to the Line Release transaction number; this number does not become the actual entry number until an entry for the merchandise released under the immediate delivery procedure is filed. A separate range must be provided for each Line Release site at the port. These entry numbers shall be used for assignment within the Line Release system. Entry filers shall not assign these numbers to other entry transactions.

#### § 142.45 Use of bar code by entry filer.

(a) *Printing of C-4 Code.* Upon receipt of an approved Line Release application, the entry filer, in accordance with instructions from the port director, shall preprint invoices with the C-4 Code in bar code and alpha-numeric format or print labels with the necessary information. Bar codes shall be printed in accordance with the specifications stated in Customs Publication 561 (*Line Release Overview*). Labels or preprinted invoices also shall state the name of the shipper or manufacturer of the product and the name of the importer of record, if other than the entry filer, above the bar code and the name of the entry filer and a product description below the bar code.

(b) *Multiple commodity processing.* Multiple commodity processing allows more than one product to be released under one entry number. The shipper/manufacturer, importer of record and the entry filer must be the same. The product description is the only variable allowed. The commodities should be

listed on one invoice with C-4 Code labels for each commodity attached to the invoice.

(c) *Distribution of labels.* If labels are used, the labels shall be affixed to the invoices in accordance with instructions from the port director. The entry filer may either affix the labels or distribute the labels to the shippers/manufacturers and instruct them in the use and placement of the labels.

#### § 142.46 Presentation of invoice and assignment of entry number.

(a) *Presentation of invoice.* When merchandise that has been approved for Line Release is imported at a Line Release site, the carrier, importer or filer shall present Customs with an invoice with the bar code or codes printed or affixed and, according to the method of transportation, the appropriate manifest document.

(b) *Verification of data.* If after scanning the bar code at the Line Release site, the Customs officer verifies the data on the bar code with the information on the invoice, he will key the quantity on the invoice and an entry number will be automatically assigned to the transaction. If there are any differences between the system data and the invoice and bar code, including any differences in entry filer, the Customs officer shall order an examination.

(c) *Other agency documentation.* If the Line Release shipment requires other agency documentation, the Customs officer at the Line Release site will be alerted to that requirement electronically when he verifies the data on the bar code with the information on the invoice. If the required form is presented to the officer with the documentation package, the shipment may be released.

#### § 142.47 Examinations of Line Release transactions.

(a) *General.* Merchandise imported under Line Release generally may be released without further Customs processing. Customs, however, may choose to inspect any Line Release shipment. Examinations may be either specifically ordered by the Customs officer or random.
